and what have you

by BOB CRAIG

The American people seem to be a nation of hero worshipers more so than any other nation. And the country's current hero seems to be Lt. Col. John H. Glenn, Jr., and with a man of his qualities it is good that we are hero worshipers.

The following editorial appeared in the Fort Worth Telegram and is well worth repeating here.

Much already has been said about the splendid qualities of our first man in orbit, Marine Lt. Col. John H. Glenn Jr., and apparently without the slightest exaggeration. His courage was demonstrated in the feat for which he is acclaimed, his modesty in the manner in which he has received this acclamation and his poise in the calm and composed demeanor he has maintained despite the bedlam that has greeted him on every hand since his historic flight.

The image he has projected through all of these characteristics should be of inestimable value as a portrayal of the American ideal to the world. It should be of even more importance to the United States as an example for the youth of the nation. But it is highly pervasive trait in the Glenn personality that except for one person none of these other admirable qualities would be evident. That one trait is his religious faith. And it would be impossible to assess too highly what Colonel Glenn's example in this respect already has meant to our country.

In an age when it is fashionable to a church member but old-fashioned to be a churchgoer, Colonel Glenn never avoidable misses a service. When it is unusual to hear God spoken of, much less spoken to, by men in the public eye, Colonel Glenn humbly prays in public. While many acknowledge God only as an abstract "Something," he speaks of Him with almost the same familiarity as he would of his wife, Anna, his son, David, of his daughter, Carolyn Ann. While learned voices utter doubts as to whether there is a place for religion in the technological future, he says, "God will be wherever we go." To a people who blame their frustration on "the fast-moving times," Colonel Glenn, who has flown 17,500 miles an hour, quietly affirms, "I have made peace with my Maker."

Colonel Glenn doesn't don his religion like a spiritual space suit for an occasional celestial orbit. He wears it every hour of every day. Nor does he wear it on his sleeve but in his heart.

His testimony is the kind of sermon this nation needs but the kind it all too seldom hears.

The newspapers of Texas have received the following plea from Gov. Price Daniel asking the people of Texas to contribute to a fund to help the people of West Germany now suffering from the ravages of the recent tragic flood.

"When Hurricane Carla struck Texas a West Berlin newspaper, the Berliner Morgenpost, led a campaign for relief funds which resulted in \$187,000 flowing to Texas victims through the German Red Cross to the American Red Cross. In view of the tragic flood which has caused even greater damage in West Germany, I have suggested that Texans should help alleviate their suffering and return their gesture of friendship.

"If agreeable, I hope that you will join other Texas newspapers in promoting contributions to be delivered through our office to the Red Cross for transmission to the people of West Germany through the German Red Cross.

Sincerely yours,
Price Daniel"

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

AUSTIN—Although the Texas Youth Council lost its fight for a legislative appropriation of \$100,000 to add more officers to its Juvenile Parole System, it just won a battle for the benefit of orphans in state institutions.

Attorney General Will Wilson turned over the deed to a \$200,000 Bell County ranch along with a check for \$12,446 to Dr. James A. Turman, the Youth Council director. Presentation represented the outcome of a four-year court battle. Heirs of the late Mrs. Parrie Haynes contested her passing the property to the state.

Dr. Turman said the orphans of Texas will receive all benefits from the 4,160-acre ranch on the Lampasas River. It will be used as a summer camp and activity center for orphan's homes. Youth Council will raise cattle, pigs and sheep there to help feed the thousands of children in its care.

HEARINGS SHOCK TURMAN—Speaker of the House, James A. Turman, candidate for lieutenant governor and a former educator, expressed a concern about the House Textbook hearing alleged that Rep. Ronald Roberts of the committee was a "communist."

"I am afraid the committee members have been too nice and open about letting anyone appear to talk about any sort of censorship," Turman said. He is worried about the committee getting too far astray of its goal of studying the textbook situation in Texas.

In an Independence Day address at Washington-on-the-Brazos, he advocated the teaching of Texas history in all grade levels, and declared, "I think it is a mistake—a sad mistake—for our educational system to relegate our great state's history into a sort of grammar school fairytale."

The speaker may be tempt-

SUNDAY NO EXCEPTION—Just because April 15 will fall on a Sunday this year, drivers won't be allowed to put off auto inspection until the following day. Col. Homer Garrison Jr., director of the State Department of Public Safety, says April 15 is the deadline—Sunday or no.

Garrison said he won't ask inspection stations to stay open that Sunday, either. So, owners of the 2,000,000 cars in the state will just have to take care of this problem by the 14th of April, or risk arrest.

GOVERNOR GOES TO WASHINGTON—Gov. Price Daniel went to Washington, D. C. for the weekend where he shared honors with Billy Graham as speaker for the annual President's Prayer Breakfast.

As a U.S. Senator, Daniel was president of the Christian Leadership group, sponsors of the annual breakfast for the President, his cabinet and members of Congress. He has remained active in the program in the nation's capital and in Austin.

Judge Zollie Steakley of the Texas Supreme Court hosted a similar event in the governor's mansion while he was gone.

SALES TAX HEARING—Sen. George Parkhouse of Dallas, chairman of the Texas Commission on State and Local Tax Policy, invited anyone interested in changing the sales tax structure to attend a public hearing on suggested changes in Dallas on March 30.

Parkhouse asked that anyone who wants to appear at the hearing advise the commission by sending a letter to Drawer C, Capitol Station, Austin 11.

The commission was authorized to study proposed changes in the new sales tax during the recent special session of the legislature.

Members include Senators Louis Crump of San Saba and J. P. Fuller of Port Arthur; Representatives Charles Ballman of Borger, Charles Sandahl Jr. of Austin and Charles W. Johnson of Trinity; Dr. John R. Steckton of the University of Texas' Bureau of Business Research; John McKee of Dallas and Hugo Loewenstern Sr. of Amarillo.

ARMY CALLS FOR APRIL QUOTA—Eligible men 22 years old and older will make up the April army draft quota of 244, says Col. Morris S. Schwartz, state selective service director.

Number of inductees is up from the March quota of 228. Schwartz said local quotas already have been sent to the 137 local boards in the state.

Exceptions to the 22-year-old rule will include volunteers and official delinquents.

NEINDA PHILOSOPHER SAYS TROUBLE WITH CONQUERING SPACE IS IT WON'T STAY CONQUERED

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route 1 is off in space this week, his letter indicates.

The trouble with conquering space is that I'm not sure it's going to stay conquered.

Like nearly everybody else, I arranged my work so I could watch Co. Glenn take off in that rocket, and I was pulling hard for him although I'll concede Col. Glenn was the one taking all the risks. Naturally, anybody who stops to think is amazed at what we've done and is proud of the achievement and it gives the Russians something to think about, namely, that this country can do about anything it sets out to do, once it puts its mind to it, and that if you can set an orbiting capsule down in the ocean with a man in it, you can set one down in Moscow with a bomb in it.

And there's more to come, as one of the scientists responsible for the success of the flight said a few years from now the type of rocket ship used to put Col. Glenn into orbit will look about like a modern airplane looks compared with the Wright Brothers' plane.

But here's the thing: people are always talking about conquering space, and I'm all for it, but conquering space may turn out to be about like conquering this Johnson grass farm. You can do it for a while, but if you don't keep conquering, it'll close in on you, and sometimes it'll beat you even

when you're trying. I can't imagine a worse job than trying to conquer space when it extends outward forever in any direction you look, endlessly, beyond the fringes of the imagination. If I ever heard of permanent employment, that's it.

As I see it, there are two main things wrong with space: there's too much of it, and there's nothing out there to breathe.

For example, I'm all for going to the moon. That is, I'm all for somebody else going, but I think man ought to prepare himself for the possibility that going may be sort of like a trip to the Sahara Desert. The main thing about it is

having gone and come back and if anybody brings up idea of a second trip, you want to change the subject

I don't know why I think he can make a go of it on the moon, taking oxygen with him and manufacturing a new supply as he gets there, when he has made too good a showing on earth, where the air is free.

Actually, though, conquering space has its interesting points and I'm as eager as you to see what those scientists next. The fact you can't actually conquer it is no drawback at least this has never stood the way of farming.

Yours faithfully,
J. A.

Price, spice and everything nice!

Who ever thought a car that saves like this could have so much sizzle? Chevrolet engineers, that's who! Liveliness and luxury for a low, low price were exactly what they had in mind to begin with. And they began from scratch with a whole carload of ingenious new ideas designed to give you more for your money. That spunky 6 with gas-sipping stinginess is just one example. Another: a new unitized Body by Fisher that's fit for a full-size family inside, easy to park

outside. Still another: tough but gentle one-piece Mono-Plate rear springs that outdo many a bigger car for quiet comfort. Any wonder Chevy II won Car Life magazine's 1962 Engineering Excellence award hands down? (The wonder would be if you settled for anything less—once you get your hands on one at your Chevrolet dealer's!)

Since the last writing winter was born in Hill County, Texas, returned with a vicious cold which killed all of the trees in this part of the state. Most of the trees were in bloom. February and March are the best months, you never tell what the weather will do, and you can't be sure that spring has really arrived until May, at least.

Thirty-six persons registered for the first Sunday Airview had the first Sunday without a pastor, although we were glad to see such a number out for both services. Rev. Derrell Lewis, Abilene, preached. He was accompanied by his wife and three children.

The pulpit will be filled next Sunday by Rev. Bob Carter of Abilene. We cordially invite everyone to come hear him. He is recommended by Steve Adams and the deacons invited him to preach.

The former pastor and his family went to Swenson Sunday to begin his pastorate here. They will move some time this week from our community to the parsonage at Swenson. Although the church community hates to lose him, our best wishes go with him in his new field.

ROLE OF TWINS IS NOT SO ROSY

Dear Amy:
We are identical twins. Our parents insist that we dress alike from head to toe until we get out of high school. We want to be distinct from each other so that our friends can recognize us as individuals. What can we do to get our parents to let us be different from each other?

The Twins:
Gentle persuasion is always the best way to win a point. If you folks simply won't listen to reason, go out and buy different clothes. Even if it takes all your baby-sitting money. It's ridiculous to make two grown-up girls keep up the role of darling twins.

Dear Amy:
We live on such a strict budget that at times I find it very depressing. This is my husband's idea of saving for the future. My husband is earning a fair salary. It's not that I don't believe in saving, but I feel we should live a little too. How do you feel about this?

No Spender:
I agree with you. We all must "live a little." Everything is good in moderation. Don't deny yourself a necessity today in order to buy a luxury tomorrow.

Dear Amy:
I belong to a family club which has been in existence for about twelve years. We meet once a month. As part of the evening's entertainment, we have a drawing for a door prize. One particular member of the family has appointed himself to supervise the drawing from start to finish and invariably either his wife, daughter or he wins (seven out of ten times last year).

Dear Amy:
I am married to a splendid man, but I would be happily married if it were not for my jealousy of his first wife. I'm obsessed by the feeling that perhaps he does not love me as much as he loved her. He talks about her seldom, but when he does I get so green-eyed that I am fairly angry and sometimes refuse to talk to him for days.

Joel Clark (left), President of Allamakee-Clayton Electric Cooperative makes billionth dollar loan repayment to REA Administrator Norman Clapp.

RURAL ELECTRICS repay
billionth dollar on U.S. loans

A \$43,272.06 check from Allamakee-Clayton Electric Cooperative, Inc., Postville, Iowa, recently pushed repayment of Rural Electrification Administration loans past the one billion dollar mark. Now, more than one dollar out of every four loaned has been returned—plus almost half a billion dollars in interest!

Since the start of rural electrification in 1935, REA has advanced \$3¾ billion in long-term loans to nearly 1,000 locally-owned rural electric systems. Rural people have used this money to build their own electric lines... the only way they could get electricity.

They've helped boost the number of farms with electricity from 10.9 to 97 per cent. And today,

rural electrics are bringing the most modern electric service to residences, farms, churches, schools, and businesses all over rural America... serving more than 17 million people.

Best of all, their loan repayment record is 99.99 per cent "perfect"... one of the finest in banking history. Rural electrics are making regularly scheduled payments on principal and interest. And in addition, they have already repaid more than \$170 million ahead of the dates it was due.

In all these ways, locally-managed rural electric systems continue to demonstrate that rural electrification, financed by REA loans, is one of the soundest investments our Nation has ever made.

OLD GLORY NEWS..

By SHARON LEVERETT

The Sophomore boys and their class sponsor were honored on Tuesday night, February 27 when the four girls of their class planned, cooked and served a meal featuring Mexican foods as one of their major meals in Homemaking II. The meal was served Buffet style in decorated surroundings in the study hall to Larry Quade, Terry Sellers, Charles Diers, Larry Ashorn, Donald Boles, Cloyd Lawson and Mrs. Cecil Klump. Other guests included Cecil Klump, W. J. Wilson, and V. R. Leverett. The girls are Marva Dudensing, Linda Wooldridge, Helen Lowack, and Landra Baitz. Mrs. V. R. Leverett is Homemaking teacher.

Tamales, Chile Enchiladas, Spanish Rice, Beans, Mexican Slaw, Crisp Tortillas, Praline Candy and Iced Tea. The girls made every item. They even killed, dressed, and cooked the chicken and then made the tamales which they wrapped in corn shucks. They made the chili that was used to make the enchiladas. They cooked the rice, beans, and made the pralines. The project provided many learning experiences as they undertook the many aspects of the completed meal. They wish to thank parents, friends and the school in co-operating to make the event possible.

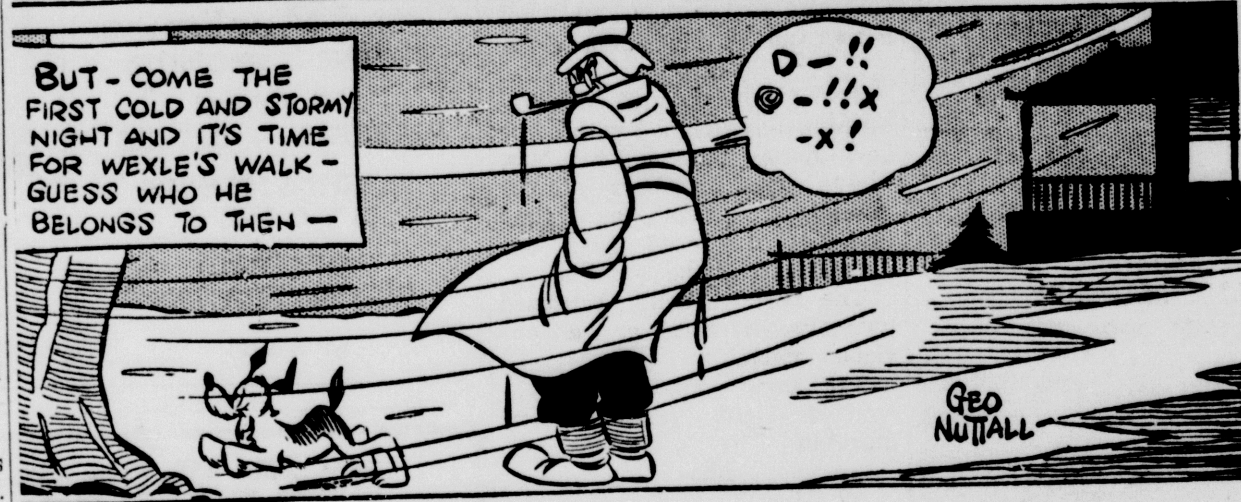

Juice Cocktail was served the guests as they arrived in the hall. Thanks was worded by Mr. Joe Wilson. Following the meal the group, joined by others, enjoyed playing volley ball in the gym.

March 5-10 is designed as Texas Public School Week. During this week, all the parents are cordially invited to visit school and to eat in the school cafeteria.

A Stanley Party was held by the local FHA girls, their sponsor, Mrs. Leverett, and Mrs. Quade in the cafeteria Tuesday night. Various games were enjoyed and refreshments were served by the girls.

The club made \$43 as their share of the sales. This money, added to their present fund, will be used to buy plastic dishes and heavy saucepans with lids for each of the lab kitchens. For having the most sales, Sharon Leverett received the first prize of an unusual dresser set. Carolyn Sander received second prize of a nice hairbrush. Mrs. Adeline Letz won the door prize of a Stanley dust mop.

IT NEVER FAILS

Twenty ladies and fifteen girls attended.

Regular rehearsals are being scheduled for the UIL contest play, "The Neighbors." Members of the cast are Sharon Leverett, Carolyn Sander, Donna Pierce, Linda Gholson, Marva Dudensing, Nancy Robinson, Tim Jennings, and Boyce Cox. The stage manager is Marilyn Flow. Mrs. Klump is the director. For the first time, the play contest is to be held at Old Glory. Make your plans now to attend and see five good plays, March 23.

The Seniors are hoping to go to Washington and New York on their trip. Tour rates will likely require a larger group. Outsiders who might be interested in making the trip are asked to see or write Mrs. V. R. Leverett, Box C, Old Glory.

The Area Supervisor, Mrs. Elizabeth Smith, visited with Mrs. Leverett. She discussed the department with the teacher and the superintendent.

Mrs. Fuzz Baldwin, Mrs. Johnnie Pumphrey, and Mrs. Lottie Wienke were the women houses that the Home-making III girls visited as part of their project on housing.

The annual staff mailed their final copy to the publishers. The annual will contain 76 pages and will have padded cover. It will be received for distribution about the middle of May. The Seniors wish to

thank everyone who has helped make this publication possible.

The senior tennis participants are: Sandy Leverett, Charles Diers, Larry Ashorn, Donald Boles, Cloyd Lawson, Terry Sellers, Joe and Jerry Cannon, Stanley Diers, Peggy Pringle, Sharon Leverett, Mary Boles, Nancy Vahlenkamp, Donna Pierce, Helen Lowack, Beverly Garner and Linda Newman.

The above went to a tennis tournament at O'Brien.

The grade school tennis players are: Stephanie Letz, Reva Letz, Eva Wooldridge, Janice Rose, Rhonda Baitz, Judy White, Rita Baldrée, Dena Bradshaw, Louise Mey-

ers, Margaret and Cynthia Lawson, Danny Lammert, Danny Letz, Paul Cornelious, Marvin Vahlenkamp, Jerry Hahn, Gary Moore, Ricky Cornelius, Jimmy Leverett, Kenneth Jones, Lyndell Quade, and Larry Flow.

The local Girls' 4-H Club met in the gymnasium with Sharon Leverett in charge. Regina Letz and Lupe Sotto led the pledge, prayer and motto. Carolyn Sander called the roll and read the minutes of the last meeting. The Club sang "Happy Birthday" to Sharon. The meeting was turned over to Judy White and Darlene Whitson.

They gave a team demonstration on Walnut Spice Kisses. It was decided that Gail Wooldridge and Patty Bradshaw will give a food demonstration at the next meeting.

Mr. Hennig came last week and discussed some of the projects the girls could carry, projects for the club to help raise money for the county, and he sampled the cookies that Patty Bradshaw and Elizabeth Wooldridge gave as a demonstration. Booklets were handed out on electric projects and entry blanks for the talent show participants.

A PLACE TO PRAY

Man can, and should, pray anywhere. God has placed no limitations on his communing with him.

Our Lord has said, "... Ask and ye shall receive." God listens when we seek him, no matter where, however he desires that we gather together in prayer too. "... mine house shall be called an house of prayer for all people."

Attend church Sunday and know the joy of prayer with others.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Re-election

The deepest well in Texas, 25,340 feet, was drilled in 1958, and was a dry hole.

LATIMER—

(Continued from page one)
uncovered caused the Health Commissioner to resign, and the entire department was reorganized to cut out waste and duplication.

He has successfully sponsored many pieces of legislation with local and statewide significance and they are too numerous to mention here.

During his five terms in the Legislature, Latimer has been an effective leader who is responsible and conscientious. He is a hard worker who has become well-known for taking positive stands on issues confronting the Legislature.

In asking for a promotion to the Senate, Latimer said he believes his broad legislative experience fully qualifies him for the job. He is seeking the office based on his record of legislative accomplishments.

Latimer believes the 2% sales tax should be reduced to 1% straight across the board. This plan will simplify matters for the taxpayer, the retail merchant and the Comptroller who collects it.

Water will always be in the forefront as one of our major problems in West Texas. To insure an adequate water supply, we must explore every possible source and work together for the orderly development of our water resources. Latimer will help each area in every possible way with their particular water problems.

In the Senate, Latimer will continue to support agricultural research which has meant so much to the agricultural economy of this district.

He believes we should have an effective small loan law. This legislation always passes the House and is consistently killed by the Senate. During the recent special session the House passed a bill that would have been the strongest loan shark law in the nation, only to be killed by a 14-16 vote in the Senate.

Latimer will also support an aggressive soil conservation program; a stronger lobby control law; deletion of traffic tickets from the present insurance plan; retention of the number one highway system in the nation; and a 70 mile speed limit on four lane divided highways.

He believes we should continue to upgrade our schools and colleges and his support of education is a matter of record.

"We must develop an aggressive program designed to bring more tourists, businesses, and investments, as well as new industry to Texas. Through this type of program our state can grow on a sound basis without increasing taxes," Latimer stated.

He is opposed to a city sales tax and a state income tax.

Latimer was born in Albany, reared at Lueders and received his B.A. degree from Hardin-Simmons University in 1951. He is married to the former Judy Johnson of Morton and they have two children: Jeff, 3 years old and Laura Gail, 7 months old.

He is a member of the First Baptist Church in Abilene, a

Rotarian, and a Jaycee. Latimer operated his own business and since 1955 has directed Ex-Student activities at Hardin-Simmons University. His widowed mother, Mrs. Zora Latimer, still resides at Lueders.

FOY EASLY—

sound, experienced business principles applied."

"Taxes are really the people's money and should be collected on a fair and equitable basis from all the citizens. Likewise, the people's money should be spent in a sound, responsible manner."

"I pledge to work and support all measures that will improve the business climate in Texas and the 83rd District which will help develop our vast raw materials, namely our oil and gas and farm products and the industrial potential of my District. As a family man and businessman, I am vitally interested in seeing that our communities develop in such a manner that will encourage stability, higher standard of living for the people, provide the best education possible for our children, and develop our state to be a better place in which to live and work. I believe that these matters should be handled with great concern, fairness, and efficiency in order to accomplish this job that is our responsibility."

"As your Representative, I pledge full time, energetic representation of all matters concerning the 83rd District and the State of Texas. I will at all times seek the best information possible from both sides on any issue and then take my stand on what I believe to be in the best interest of the people whom I serve."

Easly, 40, was born and reared in the District. He is married to the former Marjean Day. They have two daughters: Kathy, 14; and Melody, 9.
